Dear Shri Singh,

As you are aware, CISF being an Armed Force of the Union, inducts IPS officers in the rank of DIG and above. At present, a number of posts in the rank of DIG, earmarked for IPS officers, are lying vacant in the organization.

2. In CISF, DIsG play a vital role in the management of important field formations where they not only directly command a fairly large body of troops, but also interact with the Heads of Undertakings and advise them on matters of security. In addition, DIsG also perform the important function of supervising a number of field units in their charge. Thus, the IPS officers joining CISF at the level of DIG gain rich experience of securing the vital installations and critical infrastructure of the Country besides getting an opportunity to manage and command large formations of a CAPF.

3. Moreover, since CISF formations and units are spread across the length and breadth of the country, IPS officers coming on deputation would also have the opportunity of serving at different locations in India.

4. I would request you to kindly sponsor willing and suitable officers of your cadre, who are empanelled as DIsG at the Centre, for deputation to CISF and send their names on the offer list.

Warm regards,

Yours sincerely,

Rajesh Ranjan
