The supplier shall carry out his direction and shall, in any case, be responsible for the safe delivery of the goods soundly and securely packed to the Railway Administration and shall obtain from such Railway Administration a clear receipt for the goods in evidence thereof. In the absence of a clear receipt, the suppliers will be held responsible for all damages or loss caused by breakage or leakage which may occur to the goods while in transit and until they have been delivered to the consignee at railway station of destination.
(d) When goods are ordered f.o.r. station of destination, the suppliers shall be required to bear all risks of loss, leakage or damage, and shall deliver the goods in good order to the consignee at railway station of destination, mentioned in the indent, in such quantities or number and with in such time and in such manner as the Indenting Officer shall, from time to time, direct.
6. Unless when specially ordered in the order accompanying the indent, all goods must be dispatched within 14 days of the receipt of indent by the supplier.
7. With every dispatch of goods or materials under the arrangement invoices or bills of parcels in duplicate are to be sent by the supplier to the Indenting Officer, the duplicate to be returned by the Indenting Officer with the quantities or number received dully noted thereon.
8. Conditions as to time for performance whether laid down herein or in the indent, shall be always regarded as the essence of the arrangement.
9. The I.G.(SECURITY), Security Branch, U.P., Lucknow or any of the experts attached to the security Department or the Indenting Officer or any other officer or person duly authorized in writing by the Chairman

Security Branch, U.P., Lucknow, shall have power to inspect the stores before, during and after manufacture, collection, dispatch, transit or arrival and to reject the same or any part or portion, if he or they be not satisfied that the same is equal or according to the sample or specification in weights, quantity and number.

10. Goods or materials rejected or refused on the ground of inferior quality or any other ground shall be removed by the supplier at his own risk and expense within ten days after notice has been received by him of such rejection. In the event of non-removal by the supplier as aforesaid within the said period of ten days, it shall be lawful for the Security Branch, U.P., Lucknow to authorize the Indenting Officer to sell by public auction any rejected materials or goods and in such cases the supplier shall be credited with the sale proceeds thereof but will not be entitled to any loss of damage that may be occasioned by such sale. If the contractor is not satisfied with the decision of the authority rejecting or refusing goods, he may appeal to the Security Branch, U.P., Lucknow within five days of the receipt of such notice, and the decision of the Chairman, Security Branch, U.P., Lucknow will be final in all cases.

11. The system of payment shall be as follows :

- ❖ Bill in triplicate shall be sent by the supplier to the Indenting Officer and on receipt of these, the Indenting Officer or his superior officer shall make payment direct. The suppliers may, however, for their own convenience send an advance intimation for the amount of the bill to the Indenting Officer but no advance payment shall be made.
- ❖ Payment shall ordinarily be made within one month of delivery. All payment shall be subject to the deduction of any amount to which the supplier may be or render himself liable under the terms of this arrangement.

12. Packing cases, containers, gunny packages, etc. which may be used for purposes of packing and which are delivered with stores will be not returned or paid for, unless specially stipulated.

13. The contractor shall not sub-let or assign this contract without the written permission of the Security Branch, U.P., Lucknow. In the event of the contractor sub-letting or assigning this contract without such permission he shall be considered as having thereby committed a breach of this contract.

14. In the event of the suppliers not being in strict accordance with these conditions or not being delivered within the time allowed, the Security Branch, U.P., Lucknow may recover from the contractor as liquidated damages and not by way of penalty the sum of one percent of the value of the said goods or materials for each and every day up to 25 days during which the articles to be supplied are not delivered or bad articles are not replaced. Further, it shall be lawful for the Security Branch, U.P., Lucknow or the Indenting Officer to purchase the required articles or any suitable quality obtainable in the open market at the risk and cost of the contractor, who in addition to the liquidated damages aforesaid shall be liable for any loss or damages caused by the said purchase. The Security Branch, U.P., Lucknow shall alone be entitled to adjudge upon the penalty or compensation or damages due for delay in performance, as also to adjudge upon the advisability of taking other suitable action. If the delay shall have arisen from any cause which the Security Branch, U.P., Lucknow may declare in writing to be a reasonable, such additional time may be allowed as may be considered necessary in the circumstances of the case. In such a case he may also forego the whole or any part of the aforesaid liquidated damages but not the other loss or losses.

15. In case of non-performance in any form or shape of the conditions of this arrangement the Chairman Security Branch, U.P., Lucknow shall have power to annul, rescind or cancel the arrangement and upon his notifying in writing to the supplier that he has so done, this arrangement shall absolutely determine. He may also debar the firm for the Uttar Pradesh police Department contracts for such periods as he thinks fit.

16. In the event of any dispute arising out of or concerning this Agreement (except as to any matters the decision of which is specifically provided for this Agreement), the same shall be referred to the arbitration of an arbitrator nominated by the Security Branch, U.P., Lucknow and an arbitrator nominated by the contractor, or in the case of the contractor or the said Security Branch, U.P., Lucknow failing to nominate an arbitrator within the time fixed in the notice to be served on him by the said Security Branch, U.P., Lucknow or the contractor, as the case may be, by the arbitrator, nominated by the said Security Branch, U.P., Lucknow and the contractor or in case of disagreement

between the said arbitrators to an umpire appointed by them and the decision of such arbitrators or arbitrator or umpire, as the case may be, shall be final and binding on the parties. The arbitrators/arbitrator/umpire may from time to time with the consent of the parties enlarge the time for making and publishing the award.

17. Without prejudice to any other remedy provided by law any amount due from the supplier to the Governor will be recoverable as arrears of land revenue and may also be recovered by deduction from any amount due from the Governor to the supplier on any account under any other transaction.

18. The suppliers will send to the Deputy Director of Industries (Stores), Uttar Pradesh Kanpur, quarterly statement of goods they supply under this arrangement in the following form ;

Supplies during the quarter ending 200 :

Name of officer	Indent no. and date	Name of article	Quantity or number supplier	Value of applies	Remarks (whether Indian make or foreign)

SPECIFICATIONS OF Deep Search Mine Metal Detector
FILE NO. SURAKSHA/ADHU.UPKRAYA-
277/2015

<u>PURPOSE</u>		Able to detect buried items of explosive with minimum metal content and with its ease of use.
<u>GENERAL SPECIFICATIONS</u>		
1	Equipment	Self adjusting to its immediate environment. Should be totally sealed, water proof and submersible.
2	Detection	All Ferrous and non-ferrous metal even in low battery condition with prevailing detection norms and needs. Preferably different color LED indication for different detection of metal. Detection must be capable of pinpointing detected metal to 0 to 5cm range. The distance will be taken from the center of the search head to the center of the object.
3	Safety	The equipment should be safe to handle and be free from radiation hazards to the operator.
4	Standards	Prevailing International Standards to suit the ground requirements.
<u>Technical Specification</u>		
1.		Based on pulse technology
2.		Capable of detecting ferrous & Non-ferrous metals
3.		High detection sensitivity
4.		Automatic adoption to soil and water conditions
5.		Unaffected by magnetized soil, seawater
6.		Safe for electrically activated mines
7.		Should be able to discriminate between two metals placed adjacent to each other
8.		Should be able to detect metal inside hollow metal pipe
9.		Should be able to detect metal in mineralized soils
10.		Max. useable detection to be 0.05 g stainless steel at 75 mm.
11.		Pin pointing the target within ± 5 cm
12.		Adjustable volume control
13.		Selector switch for static or dynamic operation
14.		Battery operated
15.		Low battery indicator
16.		Weight of detector : < 2 Kg. preferable
17.		Complete operating weight : 3.5 Kg. max.(with batteries)
18.		Rigid design
19.		Can operate under all climatic conditions
20.		Ease of operation, no adjustment or compensation necessary
21.	<u>Accessories</u>	The carrying case should be ruggedize/easily portable. , spare battery and battery charger, if required
22	Operation & Maintenance Manual	1. Operating Manual and Service Manual should be provided with each unit. 2.Operator's training should be carried out in Lucknow/any district in Uttar Pradesh at our premises 3-Informative user hand-book

23	Demonstration	Demonstration for the verification of various Technical parameters claimed for the product by the firm will be required during technical evaluation and also at the time of delivery for technical acceptance. The demonstration must be done within one month after the tender submission. During demonstration the equipment will be tested by the technical committee in the presence of the bidders. PDI (pre-delivery inspections) will be conducted at security branch premises or test field of operation.
24	Terms & Conditions for After Sales Service/ maintenance & spares, support & infrastructure for maintenance	<ol style="list-style-type: none"> 1. The manufacturer/supplier should be a reputed firm, having service centers preferably in Uttar Pradesh. 2. Should undertake to provide maintenance/spares support for a period of 8 years including Guarantee period. 3. Should have team of qualified engineers at service station to undertake prompt and efficient service/maintenance work within 24- 72 Hrs. of complaint. 4. Should have ready stock of important modules and spare parts 5. Should have proven infrastructure <u>including testing tools</u> for repair and maintenance. 6. Bidders should submit sufficient documents to prove their experience in dealing of Deep search mine metal detector and its maintenance for a period of minimum 5 years. 7. Guarantee : Three years from the date of technical acceptance of delivery.

Specification of Telescopic Manipulator
FILE NO. SURAKSHA/AADHU.UPKARAYA-277/2015

<u>PURPOSE</u>	The Telescopic Manipulator is used to move suspect objects away. It is simple, easy to operate, and can control the switch of the manipulator. It is suitable for public security, fire protection and explosion protection.
1 <u>General Specification</u>	1-Electrically operated claw. 2-Claw can be manually rotate. 3- The rechargeable battery pack power source lasts for a minimum of 2-3 hours of continuous operation time. 4-Adopted high strength and light weight material 5-Height of stand can be adjusted and locked 6-Easy and quick installation.
2 <u>Technical Specification</u>	1-The Claw should adjustable and can be open up to 175mm 2-Lifting capacity up to 10-15 kg. 3-It has a minimum length of 4.5 meters in extended position. 4-It should not have Weight more than 15Kgs when assembled for use(excluding Tripod) 5-It should provide a standoff distance of minimum 3 meters from the claw. 6-It should able to pickup soft objects like Toy –bomb, plastic bottles, soft packet bombs etc. by way of torque control feature 7- The telescopic manipulator is having a breakaway tip arrangement, so that in case of a possible explosion only the tip is damaged and reduces the recoil effect almost to nil. 8-Should not get interfered with electromagnetic interferences , Should confirm to EMC (Electro magnetic interferences certificate) specifications en55011B and en 50082-1 9-The electronic components are water proof. 10-The telescopic arm should be of non conductive, non magnetic carbon fiber. 11.The equipment is provided with various optional claws, which can be fitted and used as required. 12.The equipment is to be provided with only one set rechargeable batteries and charger.
3 <u>Operating Temperature</u>	-10° C to + 50° C
4 <u>Accessories</u>	Tripod Stand for easy move ability Nylon shoulder strap for balancing the system Transporting Carrying Box.
5 <u>Quality of component</u>	International standard and quality.
6 <u>Operation & Maintenance Manual</u>	1- Operating Manual and Service Manual should be provided with each unit. 2-Operator’s training should be carried out in Lucknow /any district in Uttar Pradesh at our premises
7 <u>Demonstration</u>	Demonstration for the verification of various Technical parameters claimed for the product by the firm will be required during technical evaluation and also at the time of delivery for technical acceptance. SPECIFICATIONS OF EXPLOSIVE DETECTOR
FILE NO. SURAKSHA/AADHU.UPKARAYA-277/2015

PURPOSE	The Explosive Detector with Vapour Tracer should be able to detect all type of explosives. The explosive detector should be handy, light-weight, portable, reliable, low maintenance and able to detect all low, medium and high vapour pressure explosives in both particle and vapour forms.	
<u>GENERAL SPECIFICATIONS</u>		
1	Equipment	Should detect the presence of small quantities of explosive present in suspected articles such as a C4, RDX, PETN, TNT, ANFO, TATP, EGDN, DNT, HMX, Nitroglycerine (NG) Dynamite, Semtex, Ammonium Nitrate, Black Powder etc in particle & vapour mode at room temperature.
2	Detection	The result of detection and identification should display through easy to read LCD display, threat flash in color on LCD and audio alarm. All explosives should be detected even in low battery condition with prevailing detection norms and needs.
3	Safety and Ease of Operation	Control should be simple and easy to operate by Bomb Technicians. Should not involve technician drawing inferences or interpretation at the operator level.
4	Weather Proof & Shock Proof	Weather Proof means the capability of the equipment to work in all weather condition from a temperature range of -20 ^o to +55 ^o C and under different humid conditions. Shock Proof means that the equipment should be capable of withstanding the normal shock and bumps of daily operations without any problem.
5	Standards	The Supplier should clearly indicate the international standard to which the equipment complies.
<u>TECHNICAL SPECIFICATIONS</u>		
1	Technology	The detection technology should be based on Ion Mobility Spectrometry or its variant.
2	Detection Capability	Non-contact detection. Should detect wide variety of explosives including pure explosive, composite explosives and commercial explosives such as C4, RDX, PETN, TNT, ANFO, TATP, EGDN, DNT, HMX, Nitroglycerine (NG) Dynamite, Semtex, Ammonium Nitrate, Black Powder etc in particle & vapour mode at room temperature with high visibility bold view screen showing explosives detected. Should also be able to detect explosives with low vapour pressure and explosive in mixture form.
3	Specificity	False alarm rate should be less than 1%. The supplier must indicate the " False Negative" result levels.
4	Sensitivity	Explosive: Pico-Gram range. Narcotics: sub-nanogram range
5	Selectivity	1. Should give response to wide range of explosives in presence of non-explosive material 2. Should not give response to non-explosives
6	Sample collection	i) Vapour phase collection through Air sampling

		<p>ii) Trace/particle collection through surface wipe</p> <p>iii) Both Vapor and particle collection modes, if possible</p>
7	Endurance	On 90-260V AC supply equipment should work continuously. Capable of continuous operation for more than 4 hours on battery back-up preferably.
8	Warm-Up Time	Less than 10 Min preferably.
9	Analysys Time	Not more than 10 seconds
10	Recalibration	Adjustment/Resetting for further operation should be automatic
11	EMI	Operation should not be effected by electromagnetic interference of other electronic/electrical devices.
12	Versatility	Equipment should allow search of all places example field area, automobiles, aircraft etc.
13	Power	<ol style="list-style-type: none"> 1. Should operate on AC mains 220 volts \pm 20%, 50/60 Hz and 12 volts DC battery 2. Battery charger and additional batteries to be provided.
14	Alarm and Display	Clear audio/visual alarm for detection/identification. Display of result on LCD along with the name of explosive detected.
15	Upgradation	It should be possible to upgrade the system for detection to the new explosive.
16	Humidity	Should work smoothly in 95% non-condensing condition.
17	Weight & Dimensions	Portable model, light weight preferably below 5 Kg, easy to carry in field.
18	Computer compatibility	<ul style="list-style-type: none"> ✓ USB connection for real-time spectra viewing and download ✓ Data storage ✓ Dual on board processors
19	Operating Temperature	-20°C to 55°C and other atmospheric variations like rain and snow preferably
20	Maintenance & Operation	Easy routine maintenance, user friendly operation, use of minimum consumable items.
21	Accessories	The carrying case should be ruggedized/easily portable, spare battery and battery charger, text samples, sampling devices (if any), Spares Cartridges/Pad/Papers (if any), Complete Decontamination Kit.
22	Operation & Maintenance Manual	<ol style="list-style-type: none"> 1. Operating Manual and Service Manual should be provided with each unit 2. Operator's Training should be carried out in Lucknow/any district in Uttar Pradesh as directed 3. Informative User Hand-Book
23	Demonstration	Demonstration for the verification of various Technical parameters claimed for the product by the Firm will be required during Technical Evaluation and also at the time of delivery for Technical Acceptance. PDI (Pre-Delivery Inspections) will be conducted at Security Branch premises or test field of operation. During demonstration, the Technical Committee in the presence of the Bidders will test the

		equipment.
