# CHAPTER - 1

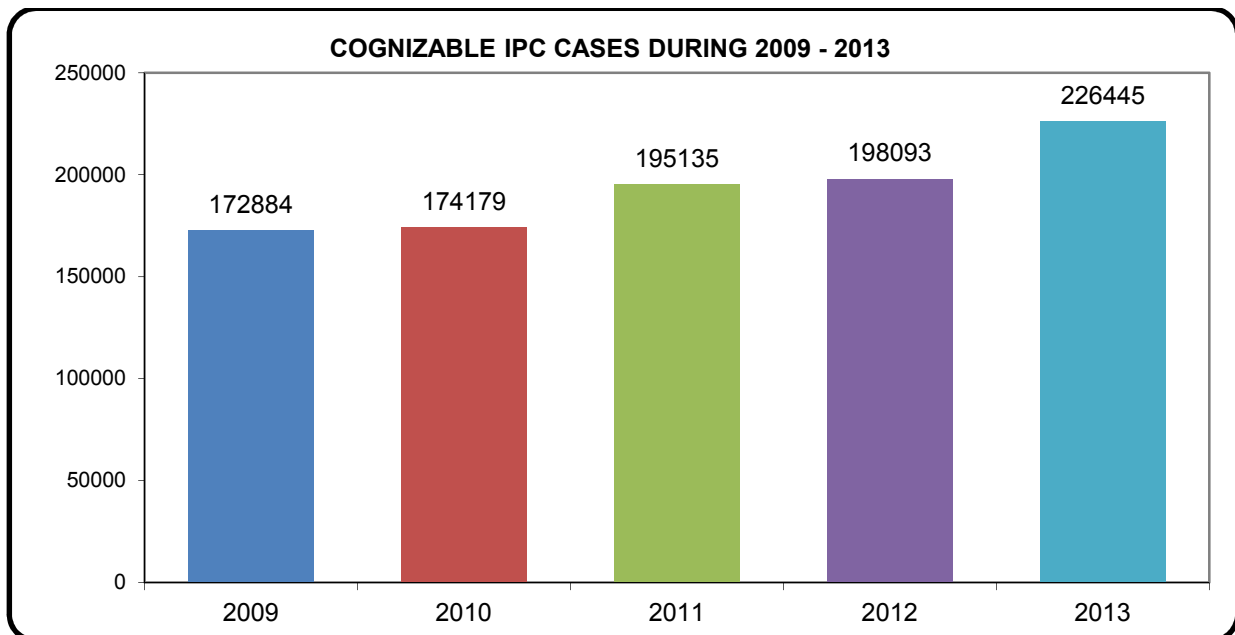

## **SURVEY OF CRIME DATA**

Table incidence of crime gives us an absolute picture of the crime situation in the state. Comparative figures over a period of time indicate an increase or decrease in the incidence of crime requiring appropriate crime control efforts by the state police.

In order to survey the important and relevant crime data of 2013, ten tables (1-10) have been prepared, which are appended to the chapter, Crime cases means total cognizable in nature and registered in the state in the year 2013.

### **TOTAL CRIME OVER FIVE YEARS:**

The incidence of cognizable crimes in the state during last five years is presented in Table-1. As many as 2143188 cognizable crimes were reported in the state during 2013 comprising 226445 cases under the Indian Penal Code and 1916743 cases under the special and local laws. The ratio of IPC to SLL crimes varied from 0.07 in 2009 to 0.12 in 2013. During 2013, 10.57 % of total crimes were accounted for by Indian Penal Code and the rest (89.43 %) by the Special and Local Law. There is an increase of 28352 cases under IPC in 2013 over 2012 which is 14.31 % but Local Laws and Special Act cases show an increase of cases which is 17.87 % in comparison to 2012.

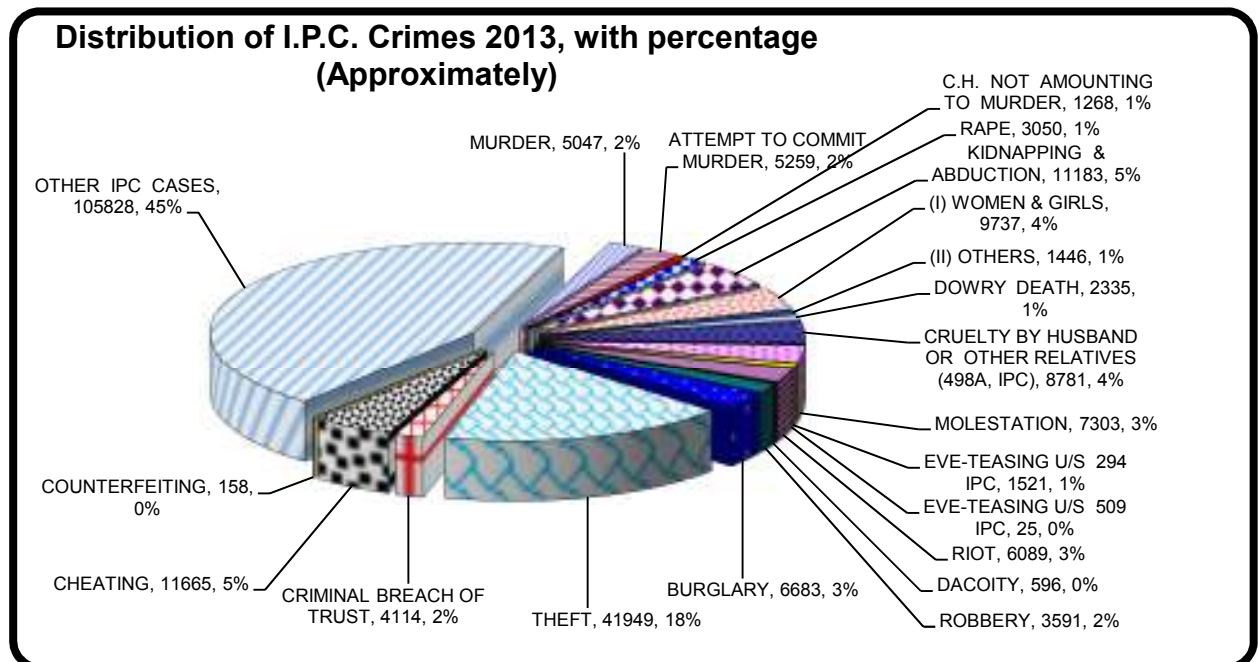

### **I.P.C. CRIMES: (incidence.....226445)**

A total of 226445 cognizable IPC crimes were reported in Uttar Pradesh during the year 2013 as against 198093 cases during 2012. The share of IPC crimes to total cognizable crimes in the state during the year 2013 was 10.57 % as compared to 10.86 % in 2012. The incidence of cognizable IPC crimes in the state during last five years is represented in Table-2, which reveals that there has been a decrease in the

incidence of IPC crimes such as culpable Homicide not amounting to Murder, Counterfeiting during the year 2013 as compared to previous year.

This table reveals that is an overall increase of 17.88 % in total IPC cognizable cases in 2013 as compared to 2012. Highest increase in the cases of crime against body is recorded in 'Rape' (55.37 %) followed by 'Kidnapping and Abduction' (25.96 %) and 'Cruelty by Husband or other relatives (498A IPC) (14.62 %). Similarly in crime against property, all the crime heads shows increase in registration of cases during 2013 when compared to previous year. The highest increase is recorded in 'Dacoity' (85.09 %) followed by 'Robbery' (13.68 %) and 'Criminal Breach of Trust' (13.08 %).

As depicted in Table-2, IPC crimes which do not fall under any of the specified categories of crime heads are clubbed under 'Other IPC' crimes. As many as 105828 'Other IPC' crimes were registered in the year 2013 which accounted for 47 % of the total cognizable IPC crimes. The 'Other IPC' crimes have recorded an increase of 12.38 % when compared to 94166 cases reported during 2012.

### LOCAL LAWS AND SPECIAL ACT CASES:

Unlike IPC offences, cases under local laws and Special Act are registered by police at their own initiative and enforcement of these laws has a definite deterrent effect. Cases under these Acts represent proactive policing i.e. reporting of crime indicates better policing efforts. Hence, the analysis of the L.L.&S.A. crime trends has to be conducted with a yardstick different from IPC crimes. The higher number of cases registered under L.L.&S.A. may indicate better enforcement. Both central Acts and state Acts have been covered under L.L.&S.A. in the chapter.

During the year 2013, a total of 1916743 cases were registered under L.L.&S.A. as against 1626067 cases during 2012, showing an increase of 17.88 %. The incidence of cognizable crimes under L.L.&S.A. in Uttar Pradesh during last five years has been shown in Table-3. Highest number of cases under 'Excise Act' (32525) were registered in 2013 followed by 'Arms Act' (22822) and 'Gambling Act' (7006) while, lowest number

of cases were reported under 'Foreigners Registration Act' (5) followed by Indian Railway Acts (9) and Indian Passport Act (21). The 'Other L.L.&S.A.' cases have not been included in this discussion.

### **SHARE OF DIFFERENT HEADS UNDER I.P.C.:**

Table- 4 presents the percentage share of I.P.C. cases under different heads over last five years. It reveals from this table that the cases registered under head 'Rape' have increased (1.35 %) as compared to the percentage share of 2012 (0.99 %) but cases of Murder, Attempt to commit Murder and C.H. Not amounting to Murder shows decrease in 2013 over 2012 and percentage distribution of remaining crime heads remained almost similar.

### **SHARE OF DIFFERENT HEADS UNDER L.L. & S.A.:**

Table- 5 reveals the percentage share of Local Laws and Special Act cases under different crime heads over last five years. This table further reveals that in 2013 percentage share of 'Other cases' under Local Laws and Special Act is 96.2 % are increasing year to year, which shows that other heads constitute only 3.8 % of the total L.L. & S.A. cases. Of these, the percentage share of 'Excise Act' is (1.7 %) followed by 'Arms Act (1.2 %), 'Gambling Act' (0.4 %) and 'N.D.P.S. Act' (0.3 %). This table also shows that percentage share of 'E.C. Act' and 'SC/St Act' remained the same during the five years (0.1 %). The maximum numbers of 'Dowry Prohibition Act' cases (1277) were registered during the year 2013. This Act contributed (0.1 %) of the total L.L.&S.A. crimes registered in Uttar Pradesh.

## **CHAPTER - 3**

### **INVESTIGATION**

With a view to study on the various aspects related to investigation of cases by Police, Table-23 and 24 have been prepared for I.P.C. and L.L. & S.A. cases respectively.

### **DISPOSAL BY POLICE:**

During the year 2013, a total of 256442 IPC cases, including those pending from the previous year, awaited disposal by police. Cases investigated and disposal by the police accounted for 84.42 percent (216650) of the total IPC cases, in addition to which investigation in 11388 cases (4.44 %) was refused. About 15.50 % i.e. 39792 cases remained pending by the end of the year.

Number of cases pending investigation disposal at the end of the year were highest for Theft (6720) followed by Cheating (4646) and Cruelty by husband or other relatives (3282), while lowest pendency was for Eve-teasing (under section 509 IPC) (5) followed by Eve-teasing (under section 294 IPC) (44) and Counterfeiting (61).

During the year 2013, A total of 1927638 L.L. & S.A. cases including those pending from the previous years awaited investigation by police. Investigation and disposal by the police accounted for about 99.33 % (1914702 cases) during the year. By the end of the year, about 0.7 % i.e. 12936 cases received pending for investigation.

Number of cases pending investigation at the end of the year was highest for other L.L. & S.A. cases (9664) followed by N.D.P.S. Act (676) and Dowry Prohibition Act (633).

### **FALSE CHARGES :**

A study of tables 23 & 24 further reveals that column no. 11 indicates the ratio of cases found false to the total number of cases investigated. The ratio is highest for Dacoity (0.14) accounted for 30.03 % (91 cases to the total 303 cases were investigated) followed by Rape and Robbery (0.10) and Kidnapping and Abduction & Burglary (0.08 each) small number to the total cases investigating are Eve-teasing (0.00) followed by Cruelty by husband or Relatives and Counterfeiting (0.01 each) and Ch. not Amounting to murder and Cheating (0.03 each). This ratio is 0.04 for total IPC cases.

As regard the L.L. & S.A. cases, in which charges were found false are very negligible. The highest ratio is recorded for Indian Railway Act (0.09) followed by SC/ST Act (0.04) and Immoral Traffic (Prevention) Act (0.02), while in other heads this percentage is very small or no cases reported in which charge found false.

It is crystal clear from the above analysis that a remarkable number of I.P.C. cases (5.02 %) are dropped because of false charges, while only 0.03 % of L.L. & S.A. cases found false.

## **CHARGE SHEET:**

Column 6 & 7 of these tables show that cases investigated and number of charge sheet submitted. In column 12 the ratio of charge sheet for I.P.C. cases is 0.54 viz (54 %) while this ratio for L.L. & S.A. is 0.98 (98 %). For I.P.C. cases this ratio is highest (0.94) for the head of Eve-teasing (under section 294 IPC) followed by u/s 509 I.P.C. (0.82) and Ch. not Amounting to Murder & Rape (0.71 each). An analysis of this table also indicates that this ratio is very less in crime against property as compared to crime against body, as it is 0.29 for Dacoity, 0.56 for Robbery, 0.28 for Burglary and 0.20 for Theft.

Similarly, the above ratio for L.L. & S.A. cases is 0.98, which means that 98 % of the total cases of L.L. & S.A. investigated by police in 2013, of which 100 % cases were charge sheeted under Antiquity and Art Treasure Act, while the percentage of charge sheets remained lowest in cases registered under the Indian Railway Act (45 %) followed by Dowry Prohibition Act (51 %) and E.C. Act (61 %).

### **ROAD HOLD UP**

With a view to discuss seasonal variation in crime and problem areas etc.. A Range has been taken as a Unit to make analysis manageable as well as useful.

Incidence of Road Hold-up crime is shown in table-57 and 58. From this table it is apparent that in the year 2013 there was remarkable decline in 'Road Hold-Up' crime. In the past year 2012 total 1 case of Road hold-up was occurred of which was reported in Agra Range but it is no crime of road hold-up happened in the state in the year 2013.

The relevant tables are 57 and 58 and the graphs from 96 to 114 which are appended to the chapter.

These tables have been prepared for incidence of Road Hold-up on the basis of fortnightly crime report of second fortnight of December 2013.

## **CHAPTER-10**

### **KIDNAPPING FOR RANSOM**

With a view to study the pattern of crime i.e. seasonal variation, problem areas etc.. Range has been taken as a Unit for analysis so that study is manageable as well as useful.

The relevant Table-59 is prepared on the basis of month-wise F.C.Rs. of 2013 and has been plotted against the month-wise crime of each Range to compare the pattern of Range which is emerging out of state average. The increasing trend in the incidence of kidnapping for ransom has (72 cases) has been observed during 2011. These cases reported a decrease of -8.3 % in the year 2012 over 2011. However, it is again 24.24 % increase in the year 2013 as compared to year 2012. Agra Range has reported the highest number of kidnapping for 'Ransom' (16 cases) accounting for 19.5 % of total U.P. (82) cases in 2013 followed by Meerut Range 15.8 % (13 cases) and Kanpur Range 10.9 % (9 cases out of 82).

#### **LINE GRAPH COMPARISON:**

The relevant graphs 115 to 133 are appended to the chapter. Comparison reveals that:-

- (a) Meerut, Kanpur, Agra and Aligarh are the worst affected Ranges.
- (b) Varanasi, Mirzapur and Chitrakoot Dham are the least affected Ranges.
- (c) In Ranges Devipatan, Basti and G.R.P. no single case of kidnapping for ransom was reported.
- (d) Agra is the Range where cases of Kidnapping for Ransom have been reported throughout the year and Meerut Range from where these cases also reported throughout the year except month of January, April, September and November.

#### **RECOVERY COMPARISON:**

Table-60 presents the details of Kidnapping for all Ranges except Devipatan, Basti and G.R.P. The maximum number of persons were Kidnapped in Agra Range (16) accounting for 19.5 % of total kidnapped (82) followed by Meerut Range (13) (15.8 %), Kanpur Range (9) (10.9 %) and Aligarh Range (7) (8.5 %).

During the year 2013, a total of 82 persons were Kidnapped for Ransom, of which only 1 was Girl, 40 Boys, 2 Women and 39 Men. Amongst the recovery of kidnapped persons 60 recovered by police and 15 by return back themselves and 7 remained for recovery. Out of 40 boys, 26 recovered by Police, 10 returns back themselves and only 4 boys remained for recovery at the end of the year.

Table-60 further reveals that out of 82 Kidnapped persons, Police made recovery of 60 persons which is (73.17 %) of the total kidnapped while 15 were return back themselves and 7 (8.5 %) persons remained untraced and pending for recovery at the end of the year 2013.

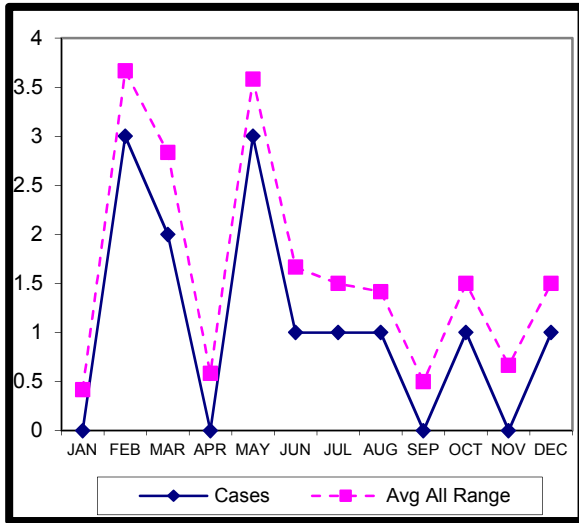

The highest number of accused involved in kidnapping were in Agra Range (77) accounting for 21.0 % followed by Meerut Range (55) 15.0 % and Kanpur Range (57) 15.6 %. Out of total number of 366 accused only 290 (79.2 %) were arrested while 76 surrendered (20.7 %). During this year 278 (75.9 %) accused were charge sheeted and against 68 (18.5 %) accused investigation remained pending at the end of the year 2013.

# CHAPTER-12

## CRIME AGAINST PERSONS BELONGING TO SCs/STs

Special social enhancements have come into force from time to time for SCs and STs in order to uphold the constitutional mandate and safeguard the interest of this section of the society.

The major legal enactments at the national level are:

- (i) Protection of civil rights act- 1955.
- (ii) Scheduled caste/Scheduled tribe (prevention of atrocities) act-1989.

The protection of civil rights act-1955 was enacted in furtherance of article 17 of the constitution to abolish untouchability and its practice in any form. The scheduled casts and scheduled tribes (prevention of atrocities) act-1989 was brought into force from 30th January 1990 in order to check and deter crimes against SCs/STs by persons belonging to other communities. Special courts have been established in Uttar Pradesh state for speedy trial of cases registered exclusively under these acts.

# CHAPTER-14

## RECIDIVISM

The habit of relapsing into crimes by the criminals is known as Recidivism and the Recidivist is a person who relapses into crime again and again. The district-wise number of recidivists (past offenders) under IPC crimes during 2013 are shown in Table-76. The share of recidivists among all offenders has increased to 1.43 % during 2013 as compared to 1.11 % in 2012. In absolute terms, the number of past offenders involved in repeating IPC crimes during 2013 was 6709 as compared to 4572 during 2012 accounting for an increase of 46.74 % in 2013 over 2012.

Table-76 describes that during 2013 a total number of 467679 persons were arrested for committing various IPC crimes of these 460970 (98.56 %) were new offenders. Out of total 6709 recidivists, 5521 (82.29 %) were convicted once in the past whereas 815 (12.14 %) were convicted twice and only 373 (5.55 %) were habituated offenders convicted three time or more in the past.

The following table shows conviction frequency of recidivists during 2009-2013.

### CATEGORY OF RECIDIVISTS ARRESTED DURING 2009-2013

Sl.No.	year	Total Recidivists	Number of Recidivists Convicted in the past		
			Once	Twice	Trice or more
1	2009	2564	1837	591	136
2	2010	2145	1562	507	76
3	2011	3132	2391	611	130
4	2012	4572	3978	436	158
5	2013	6709	5521	815	373

Table-76 also provides district-wise, Range-wise statistics regarding recidivism. It is evident from scrutiny of this table that in 2013, almost all Ranges, the percentage of recidivism is highest in Jhansi Range (4.10 %) followed by Saharanpur Range (2.08 %) and Kanpur Range (1.69 %).
