

STANDING ORDER NO. 29

A proforma of Monthly Traffic/Working return of T.P. circuit is enclosed herewith. This statement will be submitted directly to the A.R.C. 'M' Lucknow and copy be endorsed to range A.R.Cs. and Zonal S.R.Cs. on fourth of every month.

2- The circuits are on lease from Telecommunication Department, Government of India for round the clock working. In exceptional case due to shortage of staff, if it is not possible to run the T.P. station round the clock, working schedule from 1000 hours to 2200 hours be observed, but prior information be given to this Headquarters, as well as to local Telecommunication Department.

3- T.P. Operator will remain present and alert on T.P. Machine irrespective of the fact that T.P. is operative or not during his duty hours.

4- In case of Electric mains interruptions, stand-by arrangement of Power Supply be used. For this, All T.P. stations are supplied D.C. to A.C. convertor (inverter). Respective BMOs will ensure, that inverter remains in working order.

5- BSC I/C TP will liaise with the local officers of Telecommunication Department for installation of Automatic Answer Back facility, if not already provided.

6- T.P. Machines will never be switched off during schedule working hours, whether therein any traffic pending or

7- When the circuit is inoperative, the distant end must be kept in loop condition.

8- BSCs must get themselves conversant with working of T.P. Circuit/Machines and they should personally check that instructions given in the circular order No. T-107/83 dated 4.5.85 are being complied with.
